This book demonstrates how reality is stranger than fiction. Wonderfully researched, this story illustrates the folly of deceit and selfishness. How the wildest successes can end in tragedy because of weakness in character. This true story chronicles the life of a tax lawyer, his wife, a successful software entrepreneur, and includes among other household names, the Arthur Hailey family. This story unfolds like a classic Greek tragedy set in contemporary western times, I look forward to reading it again for all the important lessons it holds.

Interesting because it's a true story, and for Canadians some recognizable names, but oh does it ramble. This story could have and should have been told in 100 pages not 373.

Thank you for connecting me with the company that could get me this out of print book. It's a used copy and in immaculate order. I shipped to Canada so it took longer than anyone would like but the quality of the book is without question. The book itself is more salacious, engrossing and spellbinding than most anyone could imagine. A read that just takes you deeper and deeper into one man's world of avarice, manipulation, supercilious pride and insatiable self-centeredness. Who said Canadians are boring?!

The Blue Trust chronicles the rise and fall of two highly ambitious people, Bruce and Lynne Verchere. For those of us who worked at Manac Systems in the mid-eighties there is some grim sense of satisfaction with respect to the destiny of Lynne Verchere. The author avoids the darker side of Vercheres personality, but for those of us who knew her, any sense of pity that the story elicits is mitigated by the reality of having dealt with her on a day to day basis. Lynne Verchere was not a victim. The final tragedy of Bruce Verchere is a metaphor for the gaping hole in her own psyche. Notwithstanding the mess he had made of his life, Bruce Vercheres last desperate act was undoubtedly triggered by her final "victory" over him.

The book was in great condition, but I find the shipping that and I paid and what was used to be out of line. Other than that the transaction went very smoothly
