Flesh And Blood CD: A Scarpetta Novel (Kay Scarpetta Series)

Synopsis

It's Dr. Kay Scarpetta's birthday, and she's about to head to Miami for a vacation with Benton Wesley, her FBI profiler husband, when she notices seven pennies on a wall behind their Cambridge house. Is this a kid's game? If so, why are all of the coins dated 1981 and so shiny they could be newly minted? Her cellphone rings, and Detective Pete Marino tells her there's been a homicide five minutes away. A high school music teacher has been shot with uncanny precision as he unloaded groceries from his car. No one has heard or seen a thing. In this 22nd Scarpetta novel, the master forensic sleuth finds herself in the unsettling pursuit of a serial sniper who leaves no incriminating evidence except fragments of copper. The shots seem impossible, yet they are so perfect they cause instant death. The victims appear to have had nothing in common, and there is no pattern to indicate where the killer will strike next. First New Jersey, then Massachusetts, and then the murky depths off the coast of South Florida, where Scarpetta investigates a shipwreck, looking for answers that only she can discover and analyze. And it is there that she comes face to face with shocking evidence that implicates her techno genius niece, Lucy, Scarpetta's own flesh and blood.

Book Information

Series: Kay Scarpetta Series (Book 22)

Audio CD: 10 pages

Publisher: HarperAudio; Unabridged edition (November 11, 2014)

Language: English

ISBN-10: 0062325388

ISBN-13: 978-0062325389

Product Dimensions: 1.5 x 5.5 x 5.8 inches

Shipping Weight: 8 ounces

Average Customer Review: 3.9 out of 5 stars [See all reviews](#) (2,741 customer reviews)

Customer Reviews

I gave up on Cornwell's latest effort at less than halfway through. At my age, there is no point in spending time reading a book that has absolutely nothing to offer. Like many others, I suppose, I was first drawn to the Scarpetta series because of the fascinating mysteries that were being solved

by forensics. And I do enjoy reading books that are published in a series. Most books that are written as a series are interesting because of character development: the Three Pines series by Louise Penny is a good example. When I pick up a new Louise Penny book, I feel like I am greeting old friends. When I began reading *Flesh and Blood*, I could only think of how very elitist, arrogant and egotistical Scarpetta has become. And how Lucy and Benton have both grown so very elusive and taciturn. And I grew so weary of the petty feud between Marino and Machado that I finally just gave up. As authors become more established, their editors must back off. The first one-third of this book is so repetitive, with Scarpetta commenting (to herself or the reader) that Marino is not aware of what is going on. Over and over. I cannot believe a competent editor would pass on it. And Marino's bullish incompetence stretches credulity. Why would anyone employ such an idiot? Yet she praises his investigative skill while she portrays him as a dunderhead. Cornwell often uses a present tense narrative device as means to create tension and immediacy. In this book, it only creates boredom and confusion. I surely will not buy another Scarpetta/Cornwell novel.

Less and less enchanted with the Kay Scarpetta novels, I nonetheless bought this based on the rave reviews I read here. I did finish this book in record time, because I just turned pages and pages at a time through mind-numbing descriptions of bullets and shooting recreations. I absolutely will not be tricked into buying another--very tired of Lucy the Wonder Girl, but mostly of the world of Dr. Scarpetta who is so important that bad guys seek her out as a target and go to unbelievably extraordinary means to rub her out. Where have all the interesting autopsies gone? Too much techno-showoff here, with murders tenuously tied together, and not enough character interactions....Where are the Scarpettas of yesteryear? They were fantastic.

Are you so broke that you have to split the story into two books? I invested time wading through this, only to find...no finish...so I have to buy the next book? Forget about it, you just lost a life time fan. Cliffhangers only work for television series.....

Very disappointing--Cornwell can and has written much better books. There is way too much "chatter" about personalities, Marino, Lucy, Benton, Scarpetta herself, etc. This is all filler and unrelated to the story. Also, why can't she think up a NEW story instead of having to hark back and reuse a very ancient character--it just doesn't sell, it's not enticing as a story. Most annoying is the ending: The "inclusive" bang with which it concludes is annoying. Who got shot? The story doesn't end, doesn't conclude. The reader is left hanging--I read a novel for interest, for relaxation, and want

to have an ending. This "teaser" to get me to buy the next book just doesn't work for me. That Iris Johansen is doing this with her Eve books means that I will not buy another one until I am certain that each book "concludes". Now, I'll look in a bookstore copy--if I feel sufficiently motivated, which I may not--to look at the next Cornwell Scarpetta book to see if I can tell just where it picks up and if it will actually conclude when I plowed through it to the end. In case you can't tell, this once-fan of this series was totally turned off by this latest book.

I really enjoyed Cornwell's earlier Scarpetta novels. The last few have been disappointments and this was joins the list of the disappointing. I thought I would try one more and I'm sorry I did...this is last one I will buy. Way too much angst and time spent having the characters doubt each other, it just got tedious. Also, the ending was abrupt and didn't really resolve the tension of the story. Bummer!

This used to be one of my absolute favorite author but the last couple of books have just been painful to read. It feels like the author is running out of ideas and has a contract to meet and so is just delivering these cold, disconnected books. This book is really, really light on character development and plot. There is zero reason to care. I won't be behind the next volume as I thought the ending was an extremely cheap way to try and get one squeeze out of an old tired lemon.

I have been waiting for Cornwell to write something about Scarpetta that isn't solely based on someone trying to get back at her or her family. The early books were good, filled with intrigue, and Scarpetta and Marino were intrepid, but with Lucy being "extremely" wealthy and Benton having all this money floating around, the series has lost its flavor for a while. I noticed this with the last couple of books; I tried to get into this, but it was a token reading....I'm not that impressed....Cornwell simply as not as good a writer as Connelly or Burke, etc.
