Customer Reviews

This is a great book for the novice jazz vibist. Chords, and theory are presented in a clear manner. It is a very well planned, and organized book for vibraphone. This is a great place to start learning about jazz vibraphone.

Nicely done... as expected.

useful

the book is not base on the CD. you can learn ways to put and use voicing on your vibraphone. whether your interest is on have a good play along, buy one book of aebersold. here you can learn how to play open and close chords. that is the best. anyway. it's a book based on

voicings and he only put a bunch. he could put way too much on it. but the ones he put in the book are great
