Seal Of Honor: Operation Red Wings And The Life Of LT Michael P. Murphy

Synopsis

Lt. Michael Patrick Murphy, commander of Navy SEAL Team 10, posthumously received the Congressional Medal of Honor for his heroic actions on 28 June 2005 during a fierce battle with Taliban fighters in the remote mountains of eastern Afghanistan. Michael was the first recipient of the nation's highest military honor as a result of U.S. involvement in Afghanistan. He was also the first naval officer to earn the medal since the Vietnam War, and the first SEAL to be honored posthumously. A young man of great character, he is the subject of Naval Special Warfare courses on leadership, and an Arleigh Burkeclass guided missile destroyer, naval base, school, post office, ball park, and hospital emergency room have all been named in his honor. In his best-selling book, *Marcus Luttrell*, the only survivor of Operation Red Wings, called Michael "the best officer I ever knew, an iron-souled warrior of colossal, almost unbelievable courage in the face of the enemy." *SEAL of Honor* tells the story of Michael's life and how he came to be that man of selfless courage and honor. This biography argues that his heroic action during the deadly firefight with the Taliban revealed his true character and attempts to answer why Michael readily sacrificed his life for his comrades. *SEAL of Honor* is the story of a valiant young man who was recognized by his peers for his compassion and leadership, because he was guided by an extraordinary sense of duty and responsibility. Tracing Michael's journey from a seemingly ordinary life on New York's Long Island to that remote mountainside in Afghanistan, *SEAL of Honor* portrays how he came to the moment of extraordinary heroism that made him the most celebrated Medal of Honor recipient since WWII. Moreover, the book brings the Afghan war back to the home front, focusing on the tight-knit Murphy family and the devastating effect his death had on them as they watched the story of Operation Red Wings unfold in the news. The book attempts to answer why Michael's service to his country and his comrades was a calling faithfully answered, a duty justly upheld, and a life, while all too short, well lived.

Customer Reviews

SEAL of Honor is a compelling read chock full of lessons learned for military and civilian alike. It is a tearjerker from the very beginning and Gary Williams does an excellent job of capturing the duality of our everyday peaceful lives here in the United States and the exceptional heroism and harrowing tragedies that occur overseas. He does this by highlighting the daily rhythm of the families involved that remain relatively unchanged until the news seeping out of Afghanistan provides a clue that Michael Murphy might have been near the action. All of the key figures in the book had continued on their daily regimen, worried, certainly upset that warriors had been killed and wounded, but of course thinking it had to be someone else. Then, with the news that Michael was involved, the world stopped for his loving parents, fianc  , friends, peers, and extended family around the Long Island and the Naval Special Warfare communities. This book works on many levels. First, it is an evenhanded account of a young man's drive to become a Navy SEAL despite several other life path opportunities. Some men and women just want to serve their country and Michael Murphy was of that noble gene pool. Second, SEAL of Honor captures the agony of those on the home front as they pine for their loved ones in harm's way and pray that the government vehicle doesn't stop in front of their house and officers in full dress uniform don't appear on their doorstep. Importantly, SEAL of Honor is also a trove of leadership lessons that future generations of service men and women can read, debate, and study as they formulate their own unique leadership styles. As an author of thriller fiction I always study heroes, real life and fictional, and the best heroes are humble, selfless, hard working, and determined.

"Seal of Honor", by Gary Williams, is the biography of LT Michael P. Murphy, USN, the first man to be honored with the Medal of Honor for his courageous actions in the mountains of Afghanistan. The actions of LT Murphy and his heavily outnumbered SEAL team are documented in Marcus Luttrell's outstanding book "Lone Survivor: The Eyewitness Account of Operation Redwing and the Lost Heroes of SEAL Team 10". "Seal of Honor" reaches far beyond the battlefield to offer the

reader insights into how this hero came to be. Ingrained into every SEAL, is the ethos that the team is more important than self. Williams appropriately begins the the book by focusing on a SEAL's first team - his family. Reconstructing the events as told through personal interviews with the family, Williams exposes the reader to the uncertainty, the shock, and the disbelief experienced by LT Murphy's parents, siblings, and fiancée as they relive the casualty notification process - the process by which they learned their beloved Michael was at first missing and then recovered from the unforgiving mountains of the Hindu Kush. The reader also experiences the incredibly emotionally moving tribute given to LT Murphy by fellow warriors as his remains are transported from Afghanistan back to the United States. The reader then follows the solemn procession as Michael is transported to his final duty station at Calverton National Cemetery. As the reader is awed by the massive outpouring of community support, you begin to wonder how such a young man made such a huge impact on the community.
