Customer Reviews

I would recommend this book to anyone who wants to know about Jazz. Books contained very detailed information about how Jazz was created and the figures that influenced it throughout the history. Great purchase!

The book is honestly in new condition! I haven't found any writings, tears, etc. at all! I'm extremely

happy with this purchase! I haven't checked the Rhapsody code yet but even if it doesn't work or has already been used, this was a great deal!

It is a really good book for a music class. It explains everything really good and is not boring like many of the other music history textbooks.

Good Merchandise!
