Customer Reviews

I have never found one of these tab books without mistakes and this one is the same. But mistakes in music usually stand out so use your ear and make the corrections as needed. These tablature books make learning the songs much faster then figuring out the music yourself. I can't imagine how many record albums i ruined back in the 70's & 80's trying to figure a song out by backing up the needle to hear it again and again!!This is a very good book to learn some AC/DC songs!

While Eddie Van Halen may have inspired me to pick up the guitar, it was Angus and Malcolm Young who showed me how to shred it. The most dynamic duo in Rock N' Roll history still proves with the release of their 17th album Black Ice that they can rock the house down. There alot of great tabs here, most of my favorites are WHO MADE WHO and YOU SHOOK ME ALL NIGHT LONG as well as the ominous DIRTY DEEDS DONE DIRT CHEAP. Granted many have complained that the tabs are wrong, while I did discover many errors (including impossible fingerings that bend in one

place and still hammer halfway into next week on the other all at the same time)I discovered you have to be creative. Granted I have small hands and can't hit those impossible notes, I simply rearrange those impossible notes to something more playable for me to handle simply and quickly.This is a tricky business and requires that you have a chart with the notes for each fret of the guitar to transcribe it for how you play. Otherwise it's best for beginners looking to play AC/DC. In fact by studying the rhythm patterns I managed to play by ear a few of their songs not transcribed.

This book contains too many incorrect errors and sloppy made tabs that aren't even close to the way they are played!Who made who is played in C,A,G...NOT D,C,A like this book shows.....I don't even know what they have tabbed as the solo for Whole Lotta Rosie.. but trust me its 100% wrong!!!!Don't pay more then \$5 for this book, because there's not much to be learned from incorrect tabbing!

I bought this because I wanted to learn more AC/DC songs note for note as they're fun and not overly complicated. This book doesn't disappoint. With the little time I've had to practice so far, this book's been a great help, and for a lot cheaper than most song books. For best accuracy it helps to listen to the songs too. My only gripe is "Have a Drink on Me" isn't included.

I was really happy with this tab book. It has both basic tabs and the actual sheet music. I found it to be accurate.

Very happy with my purchase

Some really good songs, but not all the one's I wanted. Some chord transcription is overly complicated (I personally can't reach from the seventh to the second fret), but easy enough to correct.

Awesome.
