Minecraft Pocket Maps: 50 Amazing Seeds That Actually Works For Pocket Edition (Unofficial Minecraft PE Guide) (Minecraft Pocket Edition Handbook Book 3)

Synopsis

Looking for seeds for Minecraft Pocket Edition? I have been playing minecraft on my phone for a while and I know how annoying it is to find a working seed. This book has got 50 really cool seeds that we have tested and played on our phone. We even split the seeds into 3 main categories for easy access: landscape, village and resource. Not to mention there are also lots of pictures in this book to show you how the seed would look like. Don't know what a minecraft seed is? Minecraft seeds are basically the world maps that were pre-set in the game. Instead of starting your minecraft game like people normally do (e.g. create new world and enter game where you will be spawned in a randomly generated world), you can enter a special code (people call it seed) when you are creating new world. You will then be spawned in a world that is more exciting and has a style. In summary, this book offers: -Tutorial on how to input seed in Minecraft PE -50 working seeds for Minecraft Pocket Edition (Mobile) -Seeds grouped into 3 categories so that you can choose between landscape, village or resource seeds easily -Pictures on every seed!

Customer Reviews

If you need seeds for Minecraft PE, then get this book. Pretty amazing seeds anyway. There is a jungle seed and a floating island seed. If you download this, have fun.

Minecraft Pocket Maps: 50 Amazing Seeds That Actually Works for Pocket Edition from Chris L (Author), James I (Author) Kindle Edition Free download, List price \$2.02 Publication Date: March 27, 2015 This is the way a seed book should be done, though it could use a bit more descriptive dialogue about each seed there is enough to get by on. I can't review the seeds, because I don't use a tiny little screen phone or tablet or any other mobile device, too old for that stuff I guess, eyes not so good, read to many books. Anyway if you're on the Pocket Edition of Minecraft, this is the seed book to add to your library. Actual screen shots, not just images gained from using Google. Reasonably priced, they already tested these on a PE device, not just listed from Google!! This alone, will save you a ton of frustration. 5 stars Recommended

I really do not know what to say. They work, it's jaw dropping and it's amazing. that's almost all I can say. It's just awesome! Highly recommenable.

Highly recommend. Best seed book EVER! Lots of village seeds in middle of book. Thank you Chris. I enjoyed reading this.

I loved this book. I am benefiting from the seeds right now. My favourite one is the one that gets you an iron chestplate.

I would recommend this book to people who are having a hard time looking for MCPE seeds. When I got this book, I found out that the seeds works(I used some on my kindle). Also, the author wrote about all the seeds listed on this book. It can work on 0.10.5. If you don't have that version, update your minecraft pocket edition.
