Customer Reviews

i was happy that this book came with the cd and in perfect condition. however, i was unaware that there were no tab lines. while i was a little disappointed by this, i guess i'll just have to work on reading music!

Great for beginners.

This book provides a nice bass sound that seems to go well with the songs involved. I am sure you can dress it up a lot, but as written I think others will be a little impressed if you are just starting out.
