Customer Reviews

I have read all of Craig's previous books and they are a joy to read. Makes real estate investing exciting. When it comes to real estate there are not many that know more than Craig. Highly recommend, you will enjoy.

Dont read this book! i assume that the one that gave it a 5 star was a friend of a author. It doesn't explain anything and talks a lot about self help. I love self help but i than could have just bought a self help book and not spend money on this s***.

Part self help book part book that describes crowdfunding in general.
